

Cookie Policy

Last updated: 2026-10-25

Cookies are small text files a website stores in your browser. This page lists the cookies that luna360.app uses. It is operated by **SYSTHEMA ANALYTICS S.R.L.** (see the [Privacy Policy](#)).

Only strictly necessary cookies

Luna360 uses **only two cookies**, both needed for the website to work and to keep it secure. Under EU and Romanian law (Law 506/2004, art. 4(5)) such cookies do not need consent, which is why we do not show a cookie banner.

Cookie	Purpose	Duration
luna360-session	Keeps your session: the language you chose, and your login when you use the platform	2 hours after your last activity
XSRF-TOKEN	Protects forms against requests sent from other websites (cross-site request forgery)	2 hours after your last activity

Both are first-party cookies (set by luna360.app itself), sent only over encrypted connections, and contain no information that identifies you by itself.

What we do not use

We use **no** analytics, advertising, social media or other third-party tracking cookies. Our fonts are stored on our own server, so loading the website does not contact font services.

If we ever add cookies that are not strictly necessary, we will ask for your consent first and update this page.

How to control cookies

You can delete or block cookies in your browser settings. If you block the two cookies above, the language choice, the forms and logging in to the platform will not work.
